VOL. 11 NO. 37

MOKENA, ILLINOIS, FRIDAY, MAY 17, 1929

\$1.50 per year in advance

To Present Play At New Mokena School May 23

The first play to be presented in the new Mokena school auditorium is "Deacon Dubbs" to be presented May 23rd by the Mokena public school.

This play is full of heart interest and is interspersed with comedy you will like. Everyone is invited to help make this a full house for May 23rd.

Tinley P. T. A. Play Success

The play "Deacon Dubbs" which the Tinley Park P. T. A., gave at the Tinley Community hall last Friday and Saturday nights, drew a packed house. The same play was also given at Orland Monday night.

Big Model Airplane Contest Coming

Big Model Airplane Contest in Joliet, May 31 to June 1. First prize gold and silver medal and free airplane ride.

Model planes are not hard to build. With the right materials which are inexpensive a good model can be built in a few hours.

Any boy who can find it convenient should come and see me here in Mokena. I will answer your questions, help you, and furnish material at cost. Now boys we want a big attendance at the contest and some good models.

Mr. Lively, principal of the Mokena Public School has entry blanks or I can get them for you.

CARLOS HALL
Official Designer, J. M. A. C.

MOKENA DEFEATS ELWOOD

The Mokena School Ball Team defeated Elwood at Elwood last Friday by a score of 13 to 2. It was a one sided game from start to finish, and at no time was there any question about the outcome.

Mokena made runs in every inning but the last one, while Elwood made but two runs in the fifth. That was the end of Elwood's scoring.

The Mokena Team will play Manhattan today at Manhattan. Manhattan has a strengthened team this year, having won two games from Orland. It is to be remembered that Mokena also beat Orland, so the two should be well matched this afternoon.

TRACK MEET TO BE HELD AT MONEE MAY 24

The track and field meet of the following schools Mokena, Beecher, Monee and Manhattan will be held at Monee, May 24. Last year Mokena captured 1st place in the grade school section. The high school did not fare so well although with plenty of practice they would probably have made a better showing.

In the declamation, the high school won 1st place among the boys, and second in the girls, while the grade school had honorable mention.

Due to the lack of material the high school track team may not do so well this year, but Mokena expects to duplicate last year's record by winning the grade school trophy. It is also to be hoped that Mokena will win honors in the declamation.

Mrs. Bowers of Chicago Addresses Orland P. T. A.

The regular monthly meeting of the Orland Park P. T. A., held last Thursday was featured by one of those "worth while" programs. It was thoroughly enjoyed and will long be remembered by those who were fortunate enough to be present.

President Adele Cooper submitted her report on the recent State Convention held at Mattoon, Ill., and if there was anything said or done at that convention that Adele didn't live in her report—why it just couldn't have happened, that's all. Ancest of all she spent less than half of the amount that had been figured on as probable expense.

Mrs. Harry Bowers of Chicago, one of the Judges in the recent "Better Hues" contest conducted by the Chicago Tribune gave an interesting and pithy talk on "what not to do" to make the home charming. Mrs. Bowers is not only a master oher subject but has that rare gift of being able to "put over" her ideas with her audience and make the see things through her eyes.

Mrs. Harry Bowers of Orland Park also held attention of her audience with timely talk on rose culture. At Mrs. Melchoir knows whereof she speaks when she talks about roses will be affirmed by anyone who has been fortunate enough to see her own rose garden when in bloom. Her talk was based on her own successful, practical experience and it is a

Jury Returns Verdict Against J In Knippel Case

A verdict assessing the Elgin, Joliet and Eastern railroad \$1,750 damages for the death of Raymond Knippel, 29 years old, of Frankfort, who was killed by an engine at Crawford crossing, June 29, 1927, was returned by a jury in circuit court Friday before Judge Frank L. Hooper.

The jury retired at 2 o'clock Thursday afternoon and came to a decision only after 21 hours of deliberation. Judge Hooper excused the veniremen until Monday morning after expressing the hope that they obtain some sleep.

Yesterday morning, after hearing the arguments made by Attorney A. H. Krusemark, who represented the Knippel heirs and Attorney James A. Brav, who represented the railroad, the jury made a trip to the scene of the accident, a mile west of Richton. The object of their trip was to determine the visibility at the crossing.

A clump of willow trees some distance from the point where young Knippel was killed is said to obstruct the view to some extent. The railroad was sued for \$10,000 by relatives of young Knippel, who charged the railroad with negligence.

Witnesses stated that Knippel was driving slowly in his milk truck on a trip from Chicago. They said that he stopped before crossing the tracks. There was some dispute over the speed of the engine and at what point the engine sounded his warning.

Mr. Krusemark said that the railroad was negligent in not removing the obstruction to the view which he claimed was offered by the willows.

Will Seek Better Train Service For Joliet Students

L. G. Bruder of Mokena who has been instrumental in securing better transportation rates for students attending the Joliet High School from here, is now preparing to go to the front again for a better train service so that the students who do not drive a car can take the train and get to school on time.

Mr. Bruder should be advised as to how many Mokena students expect to attend the High school next fall so he can get the matter of better train service adjusted this summer.

Did You Get Your Free Wax Paper Holder and Roll?

Last week The News-Bulletin ran a full page ad. regarding the wax paper roll and holder which are being given away free with the compliments of the paper by the following merchants. G. F. Wannenmacher, Mokena; Loebe Bros., Orland Park; Folkers Bros., Scherer and Stellwagen, Frankfort; P. H. Hilderbrandt, Worth; Clip the coupon from last week's paper take it to anyone of the above named merchants and get your wax paper holder and roll of wax paper free. Do it now!

Tinley Legion Dance June 1st

The Tinley Park American Legion Post is concentrating all its efforts and energies right now on the big dance which they will sponsor at the Saenger hall on the evening of June first. The proceeds will be used to purchase the colors for the local post. Everyone is invited to this dance and help the boys to make their first dance a whale of a success.

safe bet that many of those who heard her are going in for a rose garden this year.

The girls quartette from the Lemont High School provided the entertainment and it is sincerely to be hoped that these charming and talented young ladies will favor us again at some future meeting.

The attendance prize was won by Miss Lucille Schmaedeke's room and consequently the custody of the P. T. A. picture for the coming month goes to that room.

Mrs. Ray Holton has joined the list of donors of medals to the graduating classes of this year. The Holton medal will be awarded to the 8th grade graduate who has shown the greatest scholastic ability during the past year.

A meeting of the committee on arrangements for the coming P. T. A. masquerade was held at the home of Harry B. Helting on Tuesday, May 14th. This affair which will be held on May 24th promises to be another big P. T. A. endeavor and a world of fun is promised to all who attend.

The Town Doctor SAYS

There is an old and very true saying that "What the eye doesn't see, the heart doesn't fancy", but it is also true that the eye sees many things that blind the heart to that which it otherwise would fancy.

How often have you seen a blemish on the face of an otherwise beautiful woman, so noticeable that whenever you looked at her, you could not keep your eye off the blemish? She might be wonderfully groomed, marvelously groomed and exquisitely coiffed, but try as you might, you could see only the mar.

The appearance of anything either repels or invites ownership. Eighty per cent of these things sold to-day are purchased through, or the purchase is influenced by, the eye. What a thing looks like, therefore, is extremely important in creating a desire in the minds of others for it.

The appearance of a town is just as important as the appearance of a package, the appearance of a show window, clothing, or anything that is purchased in the store or on the market.

Why do they put colored picture wrappers on cans of beans, corn and tomatoes -- it doesn't make the contents of the can any better. Why do automobile manufacturers spend so much time, care and money on the exterior appearance of the motor car -- it doesn't make the motor run smoother or last any longer, or make the car ride any easier.

Any package, even though the contents be unharmed, depreciate in value if the cover is spilled torn, or the least bit mutilated. Furniture

The "Fighting Chaplain" Is Dead

The "Fighting Chaplain" is dead. To many, these lines mean little, but to any ex-soldier who served with any of the Illinois regiments during the great war, to any one who knew him and who loved him and of these there are countless numbers in the Southwest Suburban District, it means an ache in the heart, a tear in the eye and a prayer on the lips. The Reverend John Lawrence O'Donnell, priest of the Roman Catholic church and major in the Army of the United States, known to fame as the "Fighting Chaplain of Illinois" and to his friends as "Father Jack", answered the final "Roll Call" in Atlantic City last Saturday. Having passed unscathed as a soldier of war through the very center of the fires of war, he fell a martyr to his effort as a soldier of peace. The Rev. O'Donnell had been ill for some time following a breakdown superinduced by over work and exposure during the flu epidemic of last winter. He seemed to be recovering and went east to convalesce but took a turn for the worse and last Saturday received his summons for the Great Reward.

At the time of his death, the Rev. O'Donnell was pastor of St. Ethelreda's Catholic church of Chicago and maintained a summer camp in the Palos District.

During the war, Father Jack was chaplain of the famous 132nd Illinois Infantry and prior to that was chaplain of the old 2nd Illinois Infantry. His war record is an epic of heroism and devotion to his country and his heroic exploits are a matter of history. He served in every major offensive that his division took part in and his many heroic deeds won him the affectionate sobriquet of the "Fighting Chaplain". He was awarded the Distinguished Service Cross, the Croix De Guerre and the Belgian War Cross and many other citations and decorations awarded only for valor. He was given the rank of Major in the U. S. army, the highest rank it was possible for a man of his calling to obtain. After the war he was very active in the American Legion affairs and had served both as State and National chaplain of that organization.

Father Jack's funeral was held last Thursday and was worthy of the man. His body lay in state surrounded by a guard of honor, in the church he had labored to build, clad in the uniform of a Major of the Army of the United States over which was laid the purple vestments of a priest of the Catholic church. Over the coffin was draped the flag of his country which he so ably defended and in his hands the cross of his Faith which he had so jealously maintained. Thousands of friends, young and old, rich and poor, soldier and civilian, Catholic, Protestant and Jew filed past his bier to shed a tear, to murmur a prayer and to bid him they loved a last tribute of respect and affection. The Office of the Dead was chanted by an assembly of Priests and Monks, William Polav, Vicar General of Army and Navy chaplains sang the Solemn Requiem Mass. Burial was in the Soldier's plot at

with the least scratch; a suit, though never worn, that has faded; a book with a broken cover; a shirt with a torn tail, are less than the best, and so sold at a discount. A perfect animal with a skin blemish never takes the prize.

Look around you and see all those things that are made to look attractive, in order that you may be attracted thereby -- then, think of your town.

The picture of many communities would serve well for a puzzle picture of "What's Wrong Here?" Stand back and take a good look at the picture of your own front yard, your store, your office building, your factory. Does it look GOOD or are you half way ashamed of it? Are you proud of it, or do you apologize for the looks of it when company calls or people start talking about it?

Selling a town -- and to keep pace with modern times, it must be sold -- is like selling anything else. Therefore, how your town LOOKS is of vital importance. There are few towns that are not very much like the "otherwise beautiful woman" -- their beauty is so marred by blemishes that the beholder cannot see the attractiveness for looking at the scar.

Do your part -- set an example by eliminating the scars, the blemishes of YOUR corner and others will do likewise. It's POOR BUSINESS to allow the value of your community to be discounted by a poor appearance.

New Orland Board Starts Improvements

The new village council and the new mayor of Orland Park are making things hum. The first big job the new administration has tackled is the local street problem and the county steam roller and scarifier outfit has been secured to scarify the gravel streets near the Wabash depot and other parts of the village. The streets here and in the Raney subdivision are to be given stone dressing.

The village board met Monday night and discussed many issues, among them being the repair of the streets and the issuance of anticipation tax warrants to pay for the improvement work. The session continued until 12:30 Tuesday morning.

Whoopee Party Bombards Home With Beer Bottle

Four Harvey men went on a wild whoopee party Wednesday at mid-night and when they reached Tinley Park they were in a belligerent mood and thought they were in charge of a heavy battery of artillery and started out by bombarding the home of Charles Wallen on Kirchen with a beer bottle. The full bottle of beer was thrown thru a glass panel of a French door leading into the front room of the Wallen home. The glass was strewn all over the rug in the front room and on the furniture. The bottle, unbroken, was found on top of a settee. The Wallen family were aroused from their slumber shortly after mid-night by the crash. Mr. Wallen at one telephoned Officer George Smith about the incident and Officer Smith arrested the whoopee merry makers after their big touring car ran in a ditch near the Louis Hersmeyer soft drink parlor. The whoopees were arraigned before Police Magistrate Clyde Rice Thursday morning and were assessed \$15 and costs each and the expense of repairing the broken door.

Elect New Drainage Commissioners

At a drainage election in Dist. 4 held last Saturday in Tinley Park, Henry Menke was elected as drainage commissioner in place of George Lorenz, and John Boeyer was elected in place of Henry Vogt. A meeting was held Thursday afternoon regarding the matter of drainage in the Elmore subdivision south of Tinley Park.

Mount Carmel cemetery and the "Fighting Chaplain" was escorted to his hero's resting place by an entire battalion from his old regiment, where it was interred with full military honors.

So sleeps Father Jack, a true soldier of God and of his country and this old world is poorer because of his leaving it and better because of his sojourn and labors in it.

NEW MOKENA SCHOOL IS DEDICATED WITH APPROPRIATE CEREMONIES THURSDAY NIGHT

The formal dedication of the new Mokena public school was held Thursday evening of this week and was one of the biggest events observed in Mokena since the dedication of the new St. John Evangelical church a number of years ago.

The dedicatory program was conducted in the large auditorium or gymnasium room. The spacious room was thronged. The program was opened with a musical selection entitled "Cinderella" by the Orchestra which played a number of selections throughout the program. The school children also took part in the program with special songs.

The speaker of the evening was Rev. Walter H. Macpherson of the Universalist church of Joliet, Ona E. McGovney, president of

the local board of education and County Supt. of Schools, August Maue of Joliet also made timely addresses reviewing the progress of education since the old school was dedicated in 1872.

Rev. W. J. Cramer, pastor of the St. John Evangelical church of Mokena offered the invocation and Rev. Harold Sariall, pastor of the Mokena M. E. church offered the benediction.

Rev. Glen T. Beaty, former pastor of the Mokena M. E. church, also made a timely address.

The structure as described last week has been built at a cost of \$43,000 and is well equipped.

Ralph Abell and Company, who specialize in school architecture, are the architects of the new school.

Orland Items Of Interest

It is rumored that Wm. Raney, Orland contractor is planning on building several homes on property he owns in Ashbourne.

Van Buren Knox and family have returned to Orland Park to take up their residence here again. They have rented the flat in the remodeled home of Mrs. Ella Loebe.

Ed. Cowan, President of the Southwest Towns Chamber of Commerce is throwing out hints that a big banquet and entertainment is being considered by that organization in the not remote future.

Mrs. Geo. Simms who suffered a partial stroke a few weeks ago is reported on the road to recovery.

The Tinley Park P. T. A. gave a very successful reproduction of their play "Deacon Dubbs" at the Orland Park school house last Monday night.

The Orland Park Lions club under the leadership of John Schmaedeke are making plans for a busy season.

Mrs. Christ Yunker who has been quite ill in the Blue Island hospital is reported to be improving.

Herman Kruspe is sporting a new Oakland car.

Professor Holt of the Orland Park school is making plans to have Orland well represented at the annual Cook county Pageant and Festival to be held at Swallow Cliff on June 7th.

Adele Cooper presented her annual piano recital by her pupils in the M. E. church last Wednesday.

Mothers Day was celebrated in all the Orland churches last Sunday. Quite a number of former Orland folks paid the old town a visit just to come back and see "Mother."

The Orland Park High School gave an excellent production of the play "Much Ado About Betty" on last Friday evening. The play was well staged and well acted and was full of complicated and humorous situations. The play was produced under the direction of Miss Evelyn Smith, assisted by Professor Holt.

Tinley Legion to Observe Memorial Day With Services

With the organization of an American Legion Post, Memorial Day will be observed for the first time in Tinley Park.

The Tinley Park Post is contemplating having a Memorial Day service, a public service, in the Tinley Park Community hall on May 30th.

The Post is going to decorate the grave of William Koehler, a World War veteran who is buried in the Tinley Park cemetery. A Legion marker and a floral piece will be placed on the grave. The ceremony will be in charge of Senior Vice Commander, George Rowden of the local Post.

The editor is in receipt of a fitting poem for Memorial Day from Frank Hoar, Commander of the Tinley Post. This poem will be run in the issue preceding Memorial Day.

Tinley German M. E. Aid Supper May 24

The Ladies Aid of the Tinley Park German M. E. church will give a supper at the Tinley Community hall on next Tuesday evening, May 21st.

A Case of Too Much Schultz

The Mokena ball team played a real game last Sunday at the Schiek diamond when they played the St. Mary team of Joliet whom they defeated with a score of 13 to 0. The out standing feature was the fine work of Schultz of the Mokena team who made 16 strikeouts, allowing two hits. Mokena is to play Tinley Park at Tinley this coming Sunday afternoon at 3:00 o'clock daylight saving time. On the Sunday following Mokena plays at Midlothian also at 3:00 o'clock daylight saving time.

CHAPTER X

The Long Trail Ends

It was thirteen days after the battle that Dunbar the Tardy arrived at Fort Cumberland on Will's creek with three hundred wounded soldiers. It is impossible to picture the amazement and consternation that smothered the colonies when it was definitely known that the army had been defeated and broken. There had been no concern in the public mind as to the outcome of the campaign.

The first uncertain news was received by Colonel James Innes, commander at Fort Cumberland. This was on July eleventh, two days after the battle. He immediately started expressmen to the neighboring provinces to announce his grave fear that the army had met with reverses. While these messengers were carrying the astounding news the wagoners, who had first fled the bloody field, were beginning to reach the outlying settlements. Governor Morris was at Carlisle when a half-starved, half-mad wagoner dogged his exhausted mount into the settlement and began crying out that Braddock had been defeated, that the entire army had been annihilated, and that he, the wagoner, was the only survivor.

The provinces were stunned. On the sixteenth another messenger brought further details. General Braddock was dead and had been buried at Great Meadows on the fourteenth and the army and Dunbar's wagons had passed over his grave to hide it from the savages. On the day this man brought his dismal budget, Governor Morris sent out a call for the assembly to meet him in Philadelphia on the twenty-third, so as to permit Dunbar to take the offensive and prevent the triumphant enemy from overrunning our frontiers and from bringing the ax to the eastern settlements.

Dunbar promptly announced his determination to be done with forest fighting; and he marched his twelve hundred soldiers to Philadelphia and left three hundred wounded men at Will's creek. His army went into camp on Society hill, and in vain did Governor Morris urge him to send a few men to patrol the Susquehanna. Enough refugees came in to swell the army to fifteen hundred, and without raising his hand to protect the border Dunbar the Tardy sailed with this force for New York in October.

Stupefaction was replaced by dismay as this, the only fighting force in the south, was withdrawn. In very truth were the colonies aroused to the realization that they must protect themselves by doing their own fighting, and no longer depend upon overseas armies. Once Dunbar's intentions to withdraw from the province became known, Governor Dinwiddie urged Pennsylvania and Maryland to unite with Virginia in building a strong fort at the Great crossing or on Great Meadows. This wise plan for protecting the border came to nothing because of the colonies' inability to overcome factional jealousies and to agree as to the division of the expense, labor and the like. So we drifted into three years of rapine and slaughter.

I reached Carlisle the day after Governor Morris started for Philadelphia. My wounds, aggravated by exposure, forced me to travel slowly; and my efforts to find some trace of the Dinwiddie permitted many survivors to pass me. Mine was old news when I did arrive. In Carlisle I fell in with three rangers who were cut off from the ford when the final rout filled the narrow road. They were forced to advance north, or close to Duquesne, to escape the savages. They had concealed themselves in the woods near the Allegheny, and from what they had observed I learned how five hundred of Pontiac's Ottawa had quarreled with the French over the division of the booty, and had thrown back the ax and had killed and scalped two Frenchmen very close to that spot where my informants were lying.

I recovered from my wounds and became active in preparing a defense against the red swarms we knew would soon be upon us. As rapidly as possible a string of forts was built from the Delaware and Susquehanna to the Potomac. There were Fort Bedford at Hea's Town, Fort Ligonilla on the site of the old Indian town of Loyal Anna in Westmoreland county, Fort Loudon at the foot of Blue Mountain, Fort Lowther at Carlisle and Chambers' fort a few miles west of that town.

And this were other forts, as well as numerous small blockhouses, erected during the next three years. For two months after the battle of the Monongahela we worked feverishly, taking advantage of the brief period the Indians required to convince themselves of the war path to the east was unobstructed. Then the storm began to brew.

The first blow struck by the raiders was in Cumberland county, and soon the ax was taken toll on the Susquehanna. A large body of Indians camped thirty miles above Harris Ferry and killed both sides of the

river. In October a mixed force of French and Indians was burning and scalping within forty miles of the ferry. Settlers were frantically fleeing to the east, or doggedly fortifying themselves on learning that escape was cut off. I went out with forty-five men from the ferry and helped bury fourteen mangled bodies. Great cove was destroyed.

By December, the Indians were on the Lehigh behind the Blue mountains, where they killed a hundred people and burned many cabins. Bethlehem prepared to resist an attack. At about the same time another band penetrated to the Schuylkill in Berks county and did devil's work. For fifty miles around Easton the country was devastated. So widespread were the activities of the savages that hundreds of people fled into the Jerseys, some carrying their household goods and driving their cattle; others vainly offering half of all they possessed in an effort to save something.

It was a characteristic of this unequal fighting that the Indians took but few prisoners. Thirty-six houses and the church at Gnadenbutten were burned, although Lieutenant Brown and a company of rangers fortified themselves in the church and held it until it was fired. The Juniata was visited early in January and many people were murdered within two or three miles of Fort Patterson. Even the back districts of Chester and Philadelphia counties were endangered, and four hundred German farmers from the latter county marched into Philadelphia city and demanded that the assembly grant them some protection. These settlers should have remembered how men of their race defeated Joseph Seely, Berks county candidate for sheriff, in the October election, because he favored military training.

Throughout the winter, the savages continued very active, which was unusual, as during the snow months the frontier always had experienced a relief from attacks and had slept soundly. The woods from the Juniata to Shamokin were filled with ferocious red men, who killed and burned. In the latter part of the month a hundred Indians at Kittanning, including not a few who had been loyal to England until the defeat on the Monongahela, left to raid the Cocconague settlements and forts Shirley and Littleton. I was one of those who rode ahead to spread the alarm, and I experienced enough thrills to last me several lifetimes.

And so the bloody story might go on through volumes. Settlements in flames and the rough roads crowded with terrified families. Scarcely a night could one scan the horizons and not see the red flares that told of some cabin or hamlet being wiped out. Not until Gen. John Forbes' expedition in the summer of 1758, when he marched to Duquesne with fifty eight hundred men and a thousand wagons, did we begin to have a rest from the butcheries. But General Forbes would have nothing to do with the ill-fated Braddock road and wisely followed the central path through Carlisle, Shippensburg, and over Laurel mountain. The long rifles were proving their worth and were soon to take Canada from the French.

During all this strife and these miserable scenes, I endeavored to do my share in exacting a penalty from the red men. For two weeks I worked with Captain Jack, the Black Hunter of the Juniata. But when that river was harried he became such a madman and would take such foolhardy risks that I left his band. Yet we made some rare killings in the short time we were together.

The danger was never so great, however, as to cause me to forget the Dinwiddie girl. In my dreams and in my waking hours I could see her tugging at young Morgan's hand and striving to come back and face the trouble out in my company. At night I would awake with her voice

in my ears, calling me "mister." Once I dreamed we were with the baggage train and she was saying "Kiss me." I required many a bloody foray against Shawnee and traitorous Delaware to wash that last dream thin. So there was never a day, when I was meeting with some one new, that I did not make diligent inquiry for her.

But so many families had been exterminated, so many pedigrees ended, that only by chance could I hope for news from the witch-girl. An elfish boyish creature in reality, but my separation from her translated her into some symbol of the border, something fearfully desirable. It became a mania with me to find her, and yet my place was on the frontier.

On relief sallies, on retreats and on scouting trips, I asked of all I met if they knew of one called Daniel Morgan. Some professed to have met him, but none knew about a young woman dressed as a man. At the end of my service with General Forbes I was as ignorant as to whether she be alive or dead as I had been when I recovered my wits at the edge of the clearing along the Allegheny, where the dead hung from the twelve torture-stakes.

And I missed the Onondaga. God only knows how I missed him and his brave heart when on some lonely foray, I missed Cromit in a lesser degree, and often wished his terrible hands could help me decide some uneven argument. Aye, I missed them. But it was Round Paw of the Wolf clan whose absence ate into my soul. Red or white, never was there a stronger comrade than he. The lonely Monongahela sings his requiem, but in my heart he shall ever have a high place. Many a good comrade have I had in my day, but none so dear to my memory as the Wolf man. Gone to meet his particular god as has many another, and all because one man did not understand.

Worn by incessant hardships and seriously troubled by the old arrow wound in my arm, I returned to Carlisle, uncertain as to what I should do next. The settlers were preparing to follow General Forbes' army and make a new beginning along some pleasant stream. But I, the last of the House of the Open Hand, had no desire to build a cabin and take root in one spot. The strange unrest, which had been only satisfied by the turmoil of border warfare, reduced me to a sad state of nerves. How could I ever be content on one creek or in one valley, with the memories of the Monongahela haunting me? With the vision of that small white face staring back at me, I rode a skeleton of a horse into Carlisle.

Perhaps it was a weakness of spirit that impelled me to surrender to the sudden longing to visit my old home and once more look through the gate of my father's garden. I scarcely remember my mother, but perhaps this longing was the divine calling of the maternal in me. Like my horse, I was scarcely more than a skeleton. I borrowed a suitable horse of a stranger and did not marvel at his trust in me. At times I assured myself it was but a whim, that I would soon be doubling on my tracks and seeking vision in the north; and yet I rode on.

The memories stirred up by the journey were painful. Unlike that other visit, the Onondaga was no longer my companion; and yet at times I fancied he walked at my stirrup, his chest showing the fresh white paint of the round paw of the wolf. In my more rational moments I felt old and out of place. It was when I brooded over the witch-girl's disappearance that I felt a great emptiness of heart which made all the plans of youth but little account. I had no wish to look on Josephine again and tell her poor Busby's farewell message; and yet something drew me to the town.

(TO BE CONTINUED.)

Humble Seaweed Put to Commercial Use

If "weed" is to continue as the name for a plant for which no use has been discovered, then seaweed will have to change its name.

After prolonged research, a process has been found in which seaweed is utilized in the production of algin and alginates. Algin is a substance similar to starch and gum arabic in its properties, but in many respects superior to either.

With a viscosity fourteen times that of starch and thirty-seven times that of gum arabic, it is of greater advantage than starch in sizing and finishing fabrics, for it fills the cloth better, is tougher and more elastic.

Formality

Little Jean was visiting her small cousin. They were playing and having a glorious time together when Jean's father came to take her home. After she had donned her coat and hat, she turned around and said: "Say, come back to me, somebody!"

transparent when dry, and is not acted upon by acids. Algin will undoubtedly be used in dyeing and color printing and in the sizing and coating of paper.

Seaweed, too, has for sometime been known as a source of iodine.

"Lvoof"

There is one thing harder to understand in Lwo than the Hebrew, Polish, German, Italian and Russian heard on its streets—the pronunciation of the city's name. Most of us would pronounce the "L" and follow it up by a well emphasized "vow." But the Poles will tell you to press your tongue to the roof of your mouth and say "L" as we do, then forcefully biting the lower lip with the upper teeth to say "lvoof" (Lvoof).

Hearing of Fishes

Fish do not actually have ears; they have sensitive sound organs and usually hear noises under water.

STATE CAPITOL NEWS

Hiram L. Williamson, Secretary of the Illinois Frogs Association.

A. M. Shelton, Crystal Lake, director of the state department of registration and education for the past seven years, has resigned. He has been replaced by M. F. Walsh, publisher of the Harvard Herald and Independent and a member of the civil service board under former Governor Lowden. S. J. Stanard, Springfield, director of the department of agriculture, has also resigned. Governor Emmerson has appointed former State Senator Clarence Buck, Monmouth, to succeed Mr. Stanard.

Southern Illinois coal operators have announced new reduced prices on coal shipments for this month to encourage summer orders of Illinois coal. The new prices on egg and lump coal are quoted at \$2.25; the old prices were \$2.90 and \$3. Kentucky coal operators are making desperate efforts to regain the Illinois trade, which is rapidly slipping away from them as the result of the highly successful campaigns being conducted to "Buy Illinois Coal."

Governor Emmerson is still hoping that the present session of the legislature will end on May 25. Beyond that time he allows ten days for sine die adjournment, giving the governor the customary time in which to consider bills.

The senate has voted to place all amateur boxing bouts, except those of schools and colleges, under supervision of the state boxing commission by passage of senate bill 368, introduced by Senator Edward J. Hughes of Chicago.

The senate executive committee has favorably reported out the joint resolution, introduced by Senator Herndon J. Haenisch, Chicago, memorializing the Washington administration to speed up negotiations with Canada for an early completion of the waterway to the Atlantic.

Completion of Illinois' waterway at a cost of between \$4,000,000 and \$5,000,000 will not be financed by the federal government, according to word received from Washington. Secretary of War Good expressed the belief that the state can obtain the funds by taxation.

Convict labor cannot be used by the state in building roads and making other improvements at the Pierre Menard homestead and Fort Gage state park, Attorney General Carlstrom has advised Rodney H. Brandon, director of the department of public welfare.

Representative Harris B. Gaines, Chicago, is sponsor of a bill to punish restaurants and theaters which object to colored patrons.

The house committee on revenue has killed the income tax bill introduced by Senator Simon E. Lantz, Congerville. The bill passed the senate some time ago.

The bill introduced by Dr. Henry W. Smith, Roodhouse, calling for sterilization of inmates of state institutions for the insane, has been disapproved by the house judiciary committee.

By a vote of 78 to 53 the house has passed the bill introduced by Representative Calvin Weeks, Chicago, increasing salaries of members of the general assembly from \$3,500 to \$5,000.

The next district conference of the Illinois Chamber of Commerce will be held at LaSalle on Wednesday, June 5, according to word from C. G. Ferris, the general secretary.

At a session of the house committee on roads, the bill introduced by Senator Henry M. Dunlap, Savoy, giving the state department of public works and buildings authority to plant trees and shrubbery along the highways, was approved.

The bill introduced by Representative Elmer C. Wilson, Kankakee, eliminating five posted notices to persons having claims against deceased persons, has passed the house.

Representative William W. Powers, Chicago, has introduced a bill in the house to require a person to have a license to engage as an aircraft or automobile mechanic.

Chairman R. G. Soderstrom, Streator, of the house education committee, has recommended the passage of the bill introduced by Representative Reed F. Cutler, Lewistown, providing that a school boundary change may be acted upon at any meeting instead of at the regular April meeting only.

H. H. Cleaveland, director of the department of public works and buildings, has announced that the state has completed negotiations for the purchase of land on which to locate the Pierre Menard homestead and Fort Gage state park, for \$7,500. The land is in Randolph county.

Representative Wallace Bandy, Marion, has introduced a bill appropriating \$15,000 for relief of those who suffered property losses in Williamson, and adjoining counties during recent severe storms.

Former Governor Frank O. Lowden of Illinois is urging members of the Illinois state committee, and the Eastern Missouri committee for Near East relief, to remain in the work with him until organization is completed. Mr. Lowden has recently been in Greece personally inspecting the orphanage work of the Near East relief.

Financial aid for the flooded districts along the Mississippi in Adams county was asked in a bill introduced in the house by Representative Mary C. McAdams, Quincy. She asks a total of \$240,000, of which \$175,000 would go to Adams county and \$65,000 to the Indian Grave drainage district.

Completion of 5.73 miles of concrete road in Illinois during the week of April 23 was announced a few days ago by Frank T. Sheets, chief highway engineer. The total for the year is 10:35 miles.

Bills appropriating \$14,262,746 for educational purposes have passed the house. The bills included \$10,000,000 annually for the state distributive fund and \$4,262,746 for the state normal schools. The former measure was offered by Representative Elbert T. Waller, Tamaroa, and the latter by Mrs. Florence Fifer Bohrer, Bloomington.

The Lake Springfield bill, introduced by Representative T. J. Sullivan, Springfield, has passed the senate and will be returned to the house for concurrence on the amendments. In its amended form the bill gives Springfield and all other downstate cities authority to increase their bonding power from 2½ cents to 5 cents on the hundred dollar valuation for lake purposes.

Six exhibit booths will be occupied by the state department of public health at the annual meeting of the Illinois State Medical society, which opens in Peoria on May 21, according to an announcement made by Dr. Andy Hall, state health director.

Improvements at the state normal schools, totaling \$1,107,412, were proposed in a bill introduced in the house by Representative James H. Foster, Macomb.

The bill introduced by Representative Henry Sonnenschein, Chicago, designating Route 4 from Chicago through Springfield to East St. Louis as the American Legion highway, has been advanced to third reading in the house and may be called for passage soon.

Representative Michael Durso, Chicago, has offered a constitutional amendment providing that police magistrates and justices of the peace of Chicago shall be practicing attorneys. It went to the committee on judiciary.

The bill introduced by Representative Thomas P. Sinnott, Rock Island, amending the police and firemen's pension law by eliminating the referendum applicable to many of the cities of the downstate, has been killed.

The proposed constitutional tax amendment will be offered to the senate soon, according to Senator Guy L. Smith, Pana.

Governor Emmerson has announced the resignation of John B. Walker, Joliet, superintendent of prisons, and Frank Rosbottom, DuQuoin, assistant director of mines and minerals.

A bill by Senator Roy Woods, Chicago, requires all railroads operating in Chicago to electrify their lines by January 1, 1932.

The house committee on license and miscellany has killed the bill introduced by Representative Charles W. Turner providing for a tax on cigarettes.

The bill making chattels subject to sale when they are used to secure payment of mortgages, introduced by Representative Edwin B. Bederman, Chicago, has passed the house.

The bill introduced by Representative Charles Cola, Chicago, which abolishes requirement for a daily session of local improvement boards in cities over 100,000 population, has passed the house and has been sent to the senate.

Splitting the \$6,500,000 collected under the 1927 gasoline tax between the state and counties, the house of representatives has voted to take the money from the treasury and apportion it for road purposes in case refunds suits fail.

The bill introduced by Representative Harvey Z. O'Hair, Bushnet, barring vehicles from being driven on freshly oiled or freshly graded roads in a condition to be injured, has been passed and sent to the senate.

For the rest of the session of the present general assembly, the house plans to hold two sessions a day with committee meetings in between. The morning session will last from 9:30 a. m. to 12:30 p. m., while the second session will start at 4:30 p. m. and last two hours. Later the afternoon hour for convening will be advanced to 3:30.

An upward tendency in Illinois coal production was evident in a recent graph which showed that the week's output was 808,000 tons as compared to 798,000 tons the week before.

Are You Ready?

When your Children Cry for It

Baby has little upsets at times. All your care cannot prevent them. But you can be prepared. Then you can do what any experienced nurse would do—give a few drops of plain Castoria. No sooner done than Baby is soothed; relief is just a matter of moments. Yet you have eased your child without use of a single doubtful drug; Castoria is vegetable. So it's safe to use as often as an infant has any little pain you cannot pat away. And it's always ready for the crueler pangs of colic, or constipation or diarrhea; effective, too, for older children. Twenty-five million bottles were bought last year.

Fletcher's CASTORIA

Feel Dizzy?

Headachy, bilious, constipated? Take **NR-NATURE'S REMEDY**—tonight. This mild, safe, vegetable remedy will have you feeling fine by morning. You'll enjoy free, thorough bowel action without a sign of gripping or discomfort.

The pink of propriety might be suggested as an appropriate flower for our national emblem.

Makes Life Sweeter

Too much to eat—too rich a diet—or too much smoking. Lots of things cause sour stomach, but one thing can correct it quickly. Phillips Milk of Magnesia will alkalize the acid. Take a spoonful of this pleasant preparation, and the system is soon sweetened.

Phillips is always ready to relieve distress from over-eating; to check all acidity; or neutralize nicotine. Remember this for your own comfort; for the sake of those around you. Endorsed by physicians, but they always say Phillips. Don't buy something else and expect the same results!

PHILLIPS Milk of Magnesia

FRANKFORT

Mrs. Christie Fink entertained the afternoon Pinocle club in her home last Friday afternoon. Prizes were awarded to Mrs. Peter Folkers, 1st and Mrs. Herbert Minger, 2nd. Refreshments were served. The next meeting of the club will be in the home of Mrs. Harold Folkers, Friday afternoon, May 24.

Fred Whitmore, age 33 years died in St. James hospital in Chicago Heights, May 9th following an operation. Funeral was held Saturday afternoon at the Frankfort M. E. church with burial in Pleasant Hill cemetery. Rev. Weishaar officiating. Mr. Whitmore is survived by his wife, Myrtle Oglesby Whitmore and one daughter. The Whitmores were former residents of Frankfort.

Mrs. Oscar Kniekrehn returned home Sunday morning from the Silver Cross Hospital where she recently underwent an operation.

Miss Gussie Baumgartner of Chicago is visiting here with her parents, Mr. and Mrs. Albert Baumgartner.

Mrs. Fred Leppla who has been seriously ill for some time is improving and able to be up again.

Mrs. Fred Heisner entertained Monday afternoon in honor of her daughter Francis eleventh birthday by entertaining schoolmates. Games were played and refreshments were served.

Mrs. William Lankenau entertained the Home Improvement Club in her home Thursday afternoon.

Mr. and Mrs. John Clark entertained their sons and their families last Sunday. Those present were: Dr. and Mrs. Floyd Clark and son Jackie of Oak Park, Dr. and Mrs. Paul Clark and children of Marquette, Illinois and Mr. and Mrs. Ted Clark of Chicago.

Mrs. Charles Pfeifer and Harold, Evelyn, Ella Marie and Burnetta visited Thursday at Cavanaugh, Indiana with Charles Pfeifer and son Milton who are in charge of the extra gang on the E. J. & E. at that place.

Elmer Erickson who has been ill for sometime is now improving.

Henry Geuther purchased the home of Mr. and Mrs. Henry Rehberg.

The new house of Mr. and Mrs. Albert Baumgartner is well under way. This house is next to the home of their son-in-law and daughter, Mr. and Mrs. Alfred Zechlin.

The Young Peoples' Society of St. Peter's Evangelical church will present a comedy drama "He's My Pal" in three acts in the church auditorium Friday evening at 7:30 p. m.

The cast is as follows: Wally Allen, Leroy Hansen; Roger Gall, Melvin Schroeder; Lark Marie Summer, Phyllis Baumgartner; Mona Spark, Evelyn Zimmerman; Kitten Bakle, Lois Baumgartner; Tom Spark, Arthur Weichbrodt; Ma Averill, Viola Rehberg; Mrs. Blossom McCay, Marguerite Schroeder; Calvin McCay, Vernon Hansen; Harry Booth, LeRoy Mager; Dick Smith, Harold Ebert; Smudge, Lola Harnack.

Harold Pfeifer has returned from laying steel on the E. J. & E. at Lake Zurich and now is laying steel in the Joliet yards with the gas and electric rail layer.

Services at the Frankfort M. E. church will be at 8:30 and Sunday school at 9:30. Rev. Weishaar, pastor.

The Royal Neighbors of America met last Wednesday evening in the Frankfort Hall for their social meeting.

The Mother and Daughter banquet last Thursday evening at the St. Peter's church parlors was well attended. A program was also given.

MOKENA

Mrs. Julius Hirsch has returned from Florida where she spent the winter months and reports a wonderful time.

Mr. and Mrs. J. V. Hall and daughter Eleanor enjoyed an auto trip to Starved Rock the later part of last week.

Mrs. Harry Ryan of Oklahoma, formerly Lydia Oswald of Mokena underwent a goitre operation at the Silver Cross hospital, Joliet the past week. She is improving nicely.

A card and bunco party was held in the St. Mary hall, Tuesday evening.

Mrs. A. C. Wachter has received word that her mother, Mrs. Feidler, residing at Grand Rapids, Michigan, recently fell and was injured quite badly.

Peter Michelson has entered the automobile business and is selling second hand cars in Chicago.

The opening dance of the Mokena Men's Club held Saturday night drew a very large crowd and was a decided success.

Fred Steinhagen who was quite badly burned in the recent gas explosion at the A. E. Wachter home, is able to be out again.

ST. JOHN'S EVAN. CHURCH

Rev. W. J. Cramer, Pastor

Our Sunday school always at 9 a. m. during the summer. A fine program was given by the children of the Sunday school on Mother's Day. The service on Mother's Day was

well attended.

Pentecost service commences at 10 a. m. All new members will be received into the church at the Pentecost service. If anyone wishes to unite with our church, kindly notify the pastor, call Mokena 39-R. Holy communion will be celebrated on Pentecost. All members are cordially invited to come to the Lord's Table.

Plans for the big Brotherhood supper are well under way. This supper will be given on Thursday June 6th for the benefit of St. John's church. The committee decided not to serve chicken but pork and meat- loaf. Arrangements are made to serve 600 people. A free entertainment will be given to all guests.

Mrs. Wm. Semmler is ill with a bad attack of inward goitre.

Mrs. John Semmler who has been seriously ill for the past two weeks, remains about the same.

John Liess who has been in poor health for sometime is somewhat improved.

Word comes from Ernest Tonn in Texas that he expects to leave there soon and come to Mokena.

A Hint

The photographer was taking a picture of a newly married pair and there was some difficulty in getting the right expression. "Too strained," he complained; "too strained. Don't think of each other all the time. Just look pleasant."

STUNNING SUMMER CREATIONS TO BE WORN AT SEASHORE

There used to be a time when the well dressed woman depended on the Parisian Fashion Creators for the clothes she wore. Some women who want to be different still get their clothes from Paris. The great majority of the women of America, and they by the way are considered the best dressed women in the world, get that reputation by patronizing the local shops where the product of American fashion creators are on hand. In this series of photographs there are shown a quartette of creations especially planned for wear this summer at the seashore. The upper left shows an extremely modish beach and bathing costume by Mary Mowitzky. The materials are blue and white plaid rayon with a jersey coat of the same material and lined with toweling. The upper right portrays an American designed swimming ensemble of red and white rayon with a wool jersey and a straw bonnet. The lower left is a blue and white rayon gingham creation. Daffodils and dolls and a sailor hat give this beach ensemble just the right salty touch. The lower right is an extremely colorful creation in blue and green striped rayon done in the most modern manner. Insert shows a checkered beach hat. (Herbert Photos, N. Y.)

to recondition a
MODEL T FORD

THE Ford Motor Company is making a new car, but it is still proud of the Model T. It wants every owner of one of these cars to run it as long as possible at a minimum of trouble and expense.

Because of this policy and because of the investment that millions of motorists have in Model T cars, the Ford Motor Company will continue to supply parts as long as they are needed by Ford owners.

So that you may get the greatest use from your Model T, we suggest that you take it to the nearest Ford dealer and have him estimate on the cost of any replacement parts that may be necessary.

You will find this the economical thing to do because a small expenditure now will help to prevent costlier repairs later on, increase the value of the car, and give you thousands of miles of additional service.

For a labor charge of only \$2.60 you can have your generator put in first-class condition. A new universal joint will be installed for a labor cost of \$3. Overhauling the carburetor costs \$1.50; steering gear, \$3.50; radiator, \$7.50. A complete overhauling of the rear axle assembly runs between \$5.75 and \$7 for labor. An average price of \$22.50 covers the overhauling of the motor and transmission.

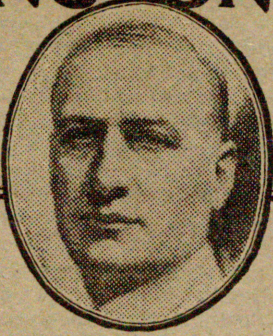

These prices are for labor only because the need and number of new parts depend on the condition of each car. The cost of these parts is low, however, because of the Ford policy of manufacturing and selling at a small margin of profit.

FORD MOTOR COMPANY

Office of
OTIS F. GLENN
United States Senator

After many weeks of work by the majority members of the Committee on Ways and Means of the House, a bill containing 85,000 words was presented to the House on May 7th, which bill is designed to replace the Fordney-McCumber Law of 1922. The bill was referred back to the Ways and Means Committee automatically. It was debated on the floor of the House last Thursday, and there was Republican Caucus at 3:00 o'clock on Friday. On account of the strength on the Republican side, little hope is entertained by the minority members for amendments. It is predicted that it will be two weeks, and perhaps more, before the bill will reach the Senate, when it will be taken up by the Committee on Finance.

The Tariff bill is called a "re-adjustment", but it is in reality a revision, mainly in the interest of agriculture. Chairman Hawley, of the Ways and Means Committee is credited with a statement supplementing the committee's report, saying that the duties proposed in the bill "are intended to adjust differences in

competitive conditions at home and abroad based upon our experience under the existing law."

"In the present bill, although a percentage of duties has been readjusted, he continued, "the average rate on dutiable imports will not be materially changed. Readjustments have been made where the differences in competitive conditions, the protection of labor, and the state of the industries affected appeared to require them and the public interest to justify."

The Ways and Means Committee has had no easy task before it endeavoring to frame a bill to meet the ideas of President Hoover for a limited revision of the present tariff law, and at the same time satisfy the farmers, manufacturers, and the importers. It is perhaps too much to hope that all of these groups will be pleased with the result.

DEBENTURE PLAN TO LOSE?

While the Senate has by a close vote adopted the debenture plan in its Farm Relief bill, no one who is well advised as to the situation be-

lieves that such provision will eventually become a part of the Federal law.

It is regarded as certain that the House of Representatives, which has already rejected it, will not recede from its position, and even if that objection were overcome, it is believed that the President would veto the measure. He is said to regard the debenture plan as much more objectionable than the equalization fee provision of the McNary-Haugen Bill.

School Children Form World's Fair Saving Clubs

J. J. Geraghty, former mayor of Streator, Ill., is back of a movement to have all the school children of the state join Chicago World's Fair savings clubs, which will enable them to view the sights of the centennial celebration in 1933.

Such clubs have already been started by the banks of Streator, the 2,500 school children there having agreed to save 10 cents weekly from now until 1933. According to Mr. Geraghty's plan, each of the 2,500 boys and girls will give his or her teacher 10 cents each week, the money in turn to be handed to the various school principals, who will deposit it in one of the city's three banks.

Mr. Geraghty stated that the Streator National Bank, Peoples Trust and Savings Bank and the Union National Bank have agreed to accept the children's deposits.

Little theatres and amusement and amusement features typical of every country on the globe will greet

visitors to the fair in the most unexpected places, according to the plan of Norman Bel Geddes, dramatic adviser to the centennial's board of architects.

Mr. Geddes, who staged "The Miracle" for Max Reinhardt, is planning on scattering little units of amusement features all over the fair grounds, in between the buildings housing the exhibits, in the gardens, and tucked away in the crooks and turns of the wall enclosing the exposition.

There will be little theatres which will present those things which will not compete with the traditional offerings of the legitimate theatres of Chicago, such as the old fashioned melodrama; there will be a theatre which will be unique in that the stage will be in the center of the audience; there will be an enclosure where the visitor, sitting down to rest, will see the wall open before his eyes, and a stage, mechanically operated, and peopled with puppets, appear for his amusement.

Hindu magicians, Japanese actors, Chinese jugglers and other performers from all the far-away places of the earth will be found in out-of-the-way nooks giving shows peculiar to their native countries.

It is Mr. Geddes' purpose to have the discovery of these little amusement units come as a surprise to the visitor who will stumble upon them as he makes his way from building to building. They will also serve as resting places for the visitor as he wends his way around the grounds.

Last of Gold Coins

The last one-dollar gold piece coined were the Grant Memorial coins made in 1922.

NEW LENOX

The annual Father and Son banquet was held in the M. E. church dining room last Thursday evening. The Rev. T. E. Ream was toastmaster of ceremonies and the following program was rendered: Piano solo, Mrs. Howard Ayers; vocal solo, Miss Margaret Doig; address Rev. J. J. Hitchens, pastor of the Richards Street M. E. church, Joliet; vocal solo, Mrs. Vera Osmus; short address to the Scouts, Arvid Swanson; vocal solo, Frank Marquet; orchestra selection, Spuehler orchestra. This banquet was sponsored by the Lions club and the proceeds are to be used to help defray expenses of the Boy Scout and Girl Scout camps.

As a special feature of the meeting of the May Home Improvement club which was held in the home of Mrs. Alfred Scherpe, Wednesday afternoon, was an exchange of plant seeds and bulbs. The roll call was answered by telling "The trait I love best in my mother". The committee in charge was Mrs. Ray Osmus and Mrs. Frank Marquet with Mrs. Earl Strausburg and Mrs. Roy Devore as assistant hostess.

The Women's Guild of the Grace Episcopal church sponsored a bakery sale in Archie Corp's store, last Saturday afternoon.

The Juvenile department of the Royal Neighbors met with Mrs. Alice Miller.

Mrs. Ethel Siddon, of Joliet has accepted the position as manager for the local Telephone office made vacant by the resignation of Mrs. Edna Deadmore, who has held this position for the past nine and a half years, to take effect June 1. The Deadmore's expect to locate near Harvey, Illinois, where Mr. Deadmore is employed by The Public Service

Co., in that city.

At a special meeting of the Lions club held in the Scout cabin. The president Ceward W. Batson, was appointed delegate to the Lions club convention to be held in Louisville, Ky., June 17, 18 and 19, with Arvid Swanson as alternate.

Mrs. Jacob Werner attended the Mother and Daughter banquet given by the Brotherhood of the St. Peter's Evangelical church in Frankfort.

The Ladies Aid society of the M. E. church served the luncheon for the regular meeting of the Lions club held in the M. E. church parlor, Thursday evening. The committee in charge was Mrs. Arvid Swanson, Mrs. William Werner, Mrs. William Fitzner, Mrs. Hugh Swinson and Mrs. William Gullickson.

Fred Embling is ill in St. Joseph's hospital, Joliet.

Rock Island To Extend Lines

Following approval by the Interstate Commerce Commission at Washington this week, of the plan of the Rock Island railroad to construct a new line into Kansas City from west of Trenton, Missouri, the management of that railroad is making preparations to rush the work this summer and bids shortly are to be asked on the construction of the first twenty miles west from Co. burn. The construction of the entire line into Kansas City will cost in the neighborhood of \$10,500,000 and will give the Rock Island a much shorter route than heretofore between Chicago, Kansas City, and beyond, and a much lower grade than the present route, thus making possible a faster movement of both freight and passenger traffic. It is probable that "dirt will begin to fly" within the next few weeks. The new line is to be approximately 85 miles long through Northwest Missouri.

This is only one of several pieces of major construction work which the Rock Island Lines have under way, this railroad now completing a new line between Liberal, Kansas and Amarillo, Texas, with projected lines from Shamrock to Quanah, Texas, for a short route to Ft. Worth, and from Dalhart to Pringle, Texas. The new Texas projects represent an outlay of nearly \$15,000,000.

Approximately \$7,000,000 will be expended by the Rock Island Railroad in the construction of new lines in Texas, work on which will start as soon as authority is received from the Interstate Commerce Commission, according to an announcement from President James E. Gorman's office in Chicago.

One new line of railway will be built south from Shamrock, Texas, through Wellington to Quanah, there connecting with the Frisco construction between Vernon and Seymour. It is planned through this route to secure a short line for the movement of business from the Texas plains territory to Fort Worth and beyond. The Shamrock-Quanah line will cost around \$5,000,000.

Another new line will be built from Dalhart, Texas, to Pringle, Texas, a distance of 60 miles. This line will open up a most fertile territory in the Texas plains country, as well as serve a productive oil territory. This line will be constructed at an expense of approximately \$1,700,000.

ENFORCING HOOVER'S EDICT

Commissioner William Spry of the General Land Office, Department of the Interior, who under instructions from President Hoover is making wholesale cancellations of oil permits for the protection of the public domains. Thus far, since Mr. Hoover assumed office, action has been taken on 5,079 permits. Of these 3,829 have been cancelled. (Herbert Photos, N.Y.)

Spaghetti Now Americanized

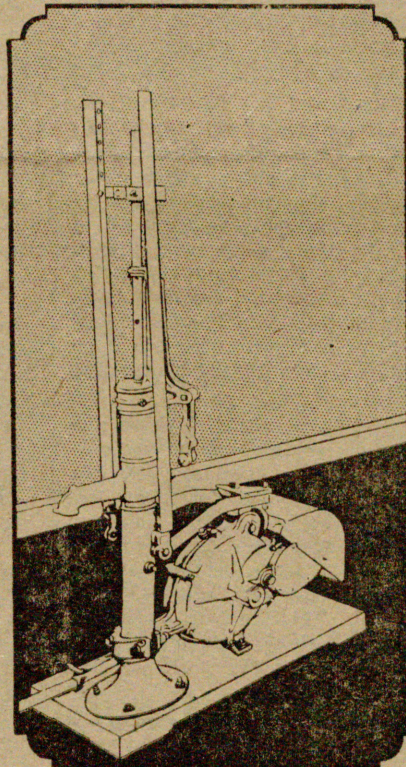

The American people eat five pounds of spaghetti per capita per year. Most of the spaghetti, macaroni and kindred products used to be imported from Italy, but 99 per cent of what we eat is now manufactured in the United States.

ELECTRIC WATER PUMPING-

For Your FARM

For day in, day out, all-year dependable water service, electric pumping is the sensible and economical plan. It also assures you of plenty of water for every farm need, including fire protection. And that is important. Your milk cows get all the water they want, and you can have a circulating water system in the dairy barn if you wish.

Electric pumping means a lot in the house, too. You can use water as freely as desired, without imposing upon anyone either for carrying water or making the pump work. An electric pump, operated from central station power lines, gives complete, satisfactory service.

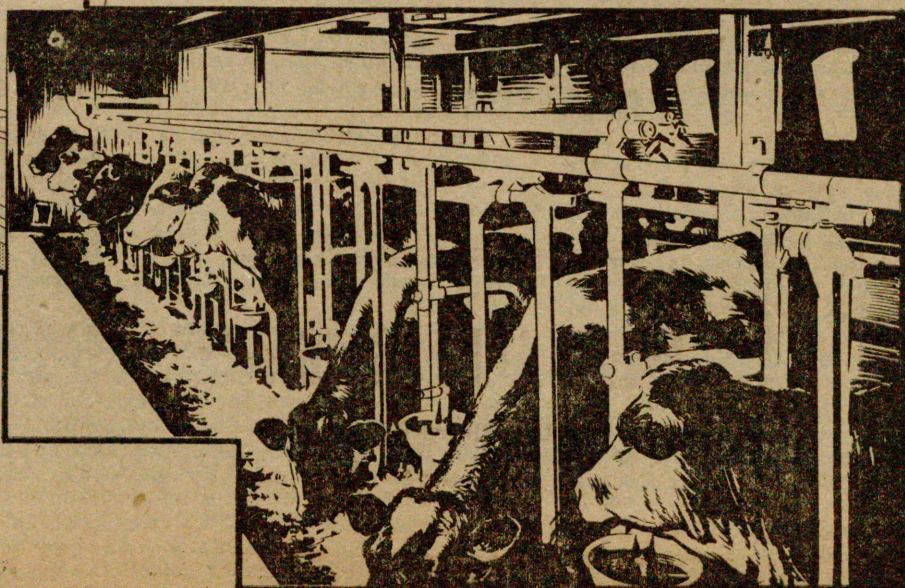

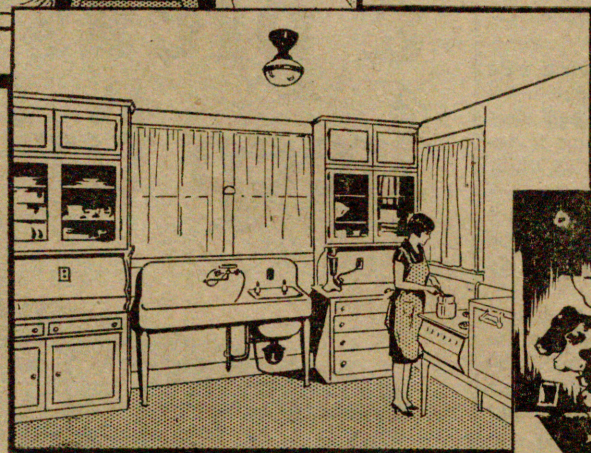

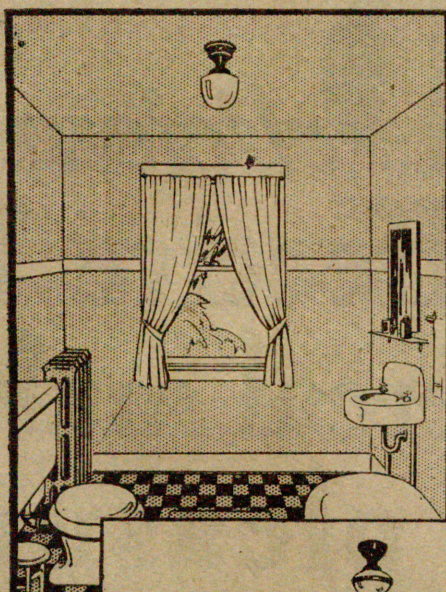

A New Plan for Extending ELECTRIC SERVICE To Farms

A new plan has been worked out, largely through the advice of farmers, which we believe will hasten farm electrification. A post card mailed to us will bring a special farm representative who will explain complete details of the plan, without obligation to you.

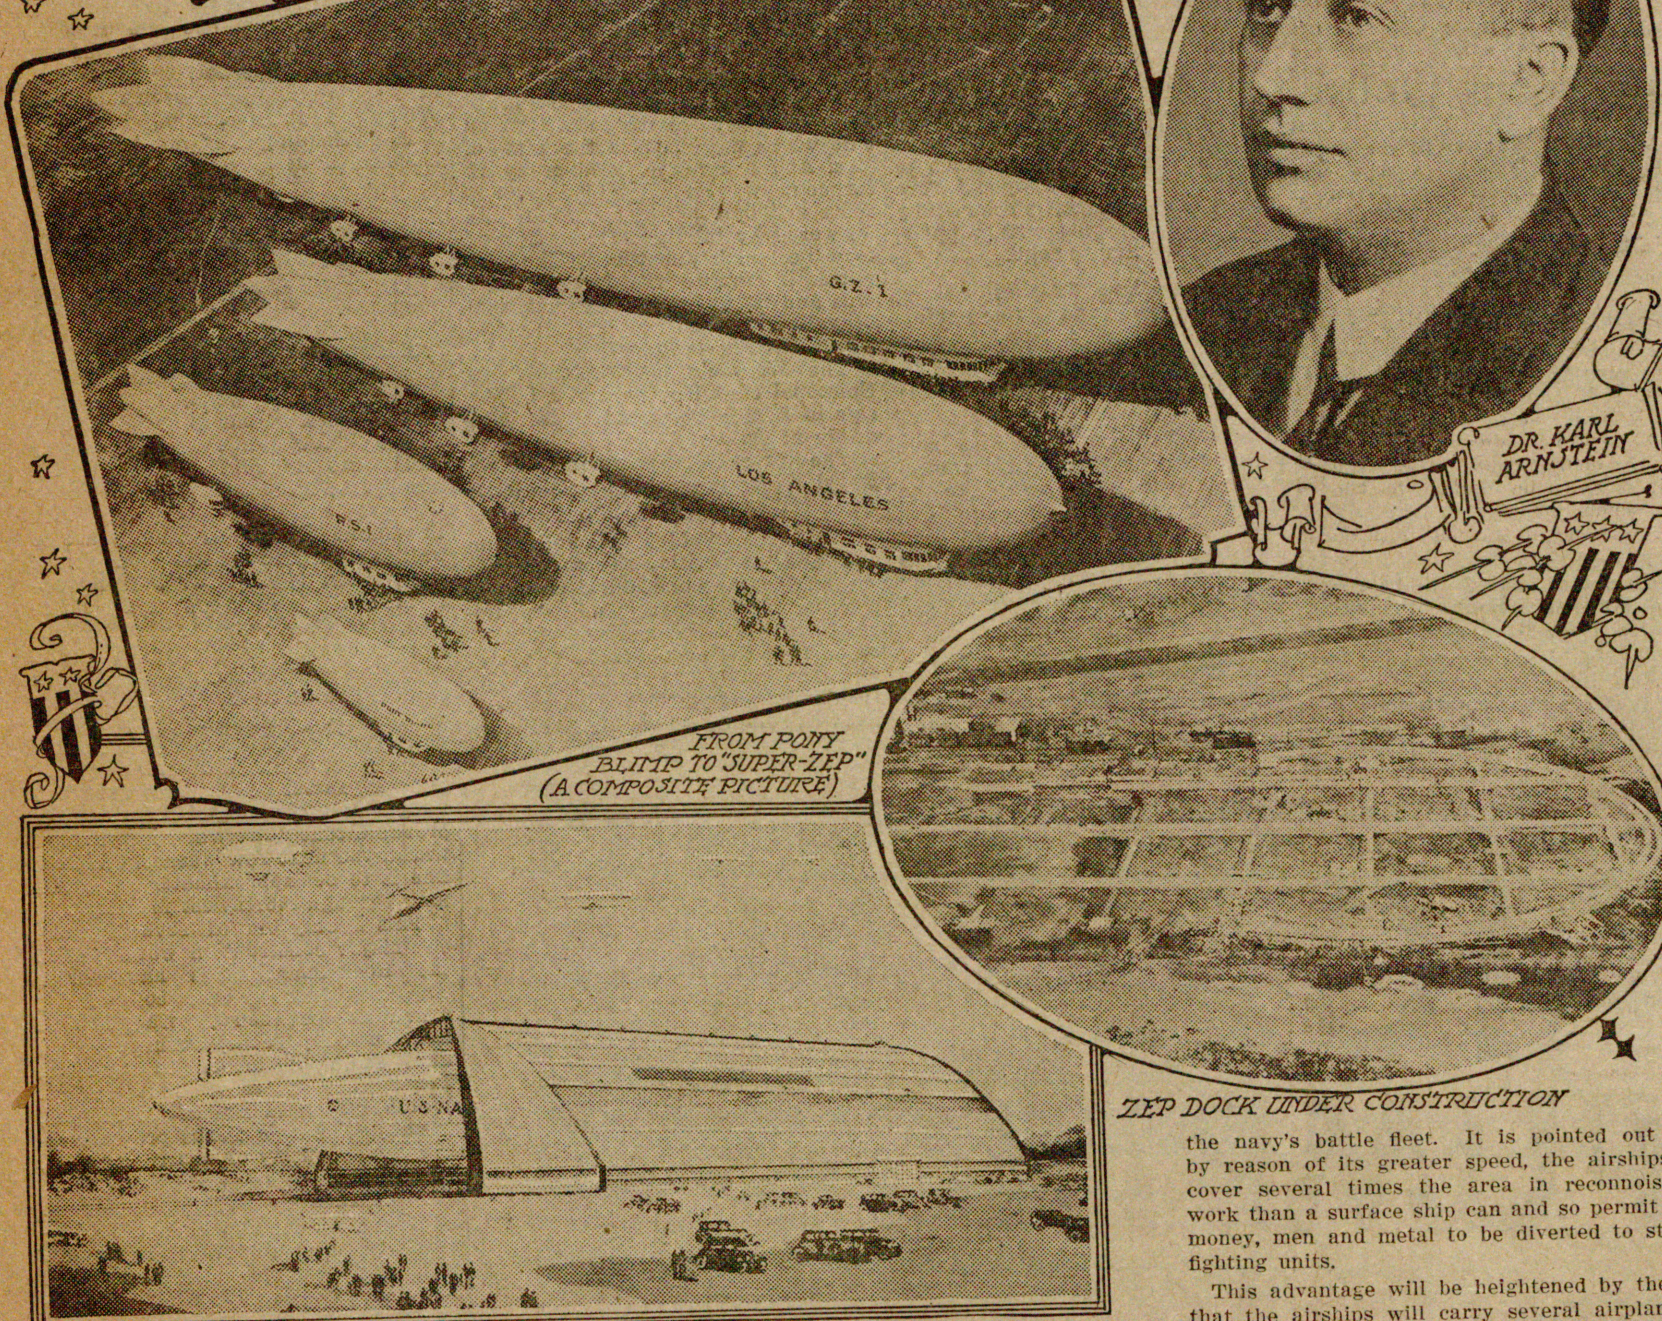

PUBLIC SERVICE COMPANY OF NORTHERN ILLINOIS

L. C. STEPHEN, DIST. MGR.
TEL. 1250 JOLIET, ILL.

Write us for more information on this new plan for bringing electricity to your farm.

Uncle Sam Builds World's Biggest Zep

ARCHITECT'S DRAWING OF NEW ZEP DOCK

By ELMO SCOTT WATSON

THE United States gave to the world the first successful airplane and since the Wrights made their historic flight a quarter of a century ago, Uncle Sam has been the leader in the development of heavier-than-air craft. Now he is going out after new laurels in flying, and following the lead of a European country he is preparing to excel that country in lighter-than-air craft. For the world's biggest Zeppelin—two of them in fact—are now being built in Akron, Ohio, as a part of the airship building program recommended by the naval bureau of aeronautics.

This airship building program undertaken by Uncle Sam represents the accumulation of years of research and flying experience in both Europe and America, and the expansion of America's lighter-than-air program came only after the matter had been exhaustively discussed by three sessions of congress. Emphasis was laid on the fact that America, having possession of vast resources of the noninflammable gas, helium, had opportunity for construction of airships that no other country had. The most important airship improvement in recent years is the use of helium gas. During the World War all of the airships used contained hydrogen gas which is inflammable and under certain conditions explosive.

In connection with the announcement that Uncle Sam is to have the world's biggest Zep it is interesting to note that, although this type of aircraft was the invention of a German, it really originated in this country. Count Ferdinand Zeppelin, for whom it is named, conceived the idea of building a rigid ship while he was serving as a volunteer officer in the Union army during the Civil War. During his service he had the opportunity of making ascensions in captive balloons at Ft. Snelling, Minn., and in Virginia. Later as a colonel of cavalry during the Franco-Prussian war, Zeppelin observed the use of free balloons which flew over Paris during the siege of the French capital. From that time on he spent most of his leisure time studying and designing airships and in 1896 he retired from the army to devote the rest of his life to that work.

Zeppelin built his first ship in 1900 but it was not until 1910, after he had built and lost four ships, that the world accepted his invention as practicable. During the next four years Zeppelins were used extensively for passenger service and carried more than 35,000 passengers without a single accident. The outbreak of the World War, however, prevented him from carrying out his dream of a regular schedule of airship travel between Europe and America and he died in 1917. By this time the Zeppelin corporation had grown to be one of the greatest companies in Germany and this type of airship was extensively used for military purposes throughout the World War. One of the Zeppelin experts was Dr. Karl Arnstein, chief engineer and constructor of 70 airships. In 1924, when the Zeppelin rights for North America were sold to an American company, Arnstein came to this country as vice president and chief engineer of the Goodyear Zeppelin corporation. In the navy competition of 1926 Arnstein's designs were awarded first place and on them was based the contract which was let last October for building the superdirigibles which are now under construction in Akron.

The two new super-Zeps will be known as the ZRS-5 and ZRS-6. To give you an idea of what these Leviathans of the air will look like take a look at the composite picture shown above. If you saw the Los Angeles during its tour across the country or if you saw the Graf Zeppelin and marveled at these monsters of the sky, consider

these facts: The ZRS-5 and the ZRS-6 will be about two and a half times as large as the Los Angeles and nearly twice as large as the Graf Zeppelin. They will have a gas capacity of 6,500,000 cubic feet each as compared to the 2,500,000 of the Los Angeles and the 3,700,000 of the Graf Zeppelin. England will shortly launch two giant dirigibles, the R-100 and the R-101 which will for a short time enjoy the distinction of being the world's largest Zeppelins. But they will have a capacity of 5,000,000 cubic feet each so that they soon will have to hand over the laurels to Uncle Sam's giants.

Now, if you are unable to visualize these airships in the cubic feet terms given above, consider them in terms of the specially designed building which will be constructed for them. Imagine a great hollow half-egg shell of a building, big enough to clap down over the National Capitol at Washington. It will be 1,200 feet long (that's 400 yards, or nearly a quarter of a mile), 325 feet wide, and 200 feet high. This building, constructed for a unique purpose, is itself unique in that it will be the biggest structure in the world without interior supports.

Many novel engineering and construction problems are involved in planning this dock (for that is what its builders call it). It must be big enough to house the ship and its shape must be such as to reduce the likelihood of gusts forming about the entrance, thus enabling the Zeppelin to enter and leave the dock without dangerous crosswinds—this problem being one of the most important in the handling of the airships. Engineers who are in charge of construction decided that the best way to accomplish this was to shape the building like an egg cut in two the long way.

It will be placed on rollers to allow the entire mammoth structure to "stretch" and contract. Being entirely of steel, both frame and roofing, the building will gradually change its dimensions as temperatures vary. It will expand as the air becomes warmer and contract as it gets cooler. The rollers allow it to breathe.

Another unusual problem was that of operating the doors, which will be placed at each end of the dock. They will not be the usual straight doors but will conform to the general plan of the building and will resemble in shape that of a quarter of an orange; thus their designation as "Orange-Peel" doors.

They will be opened and closed by electricity, four 125-horse power motors furnishing the necessary current, and will be carried upon heavy trucks, resembling those used on railroad freight cars.

Through the length of the building extending far out into the field at each end will run a mile of docking rails, upon which small trucks will ride. The ship will be anchored to these as it moves in or out of the hangar, further steadying it against cross hangar winds and reducing the number of the ground crew which otherwise would be required.

A tunnel has been built under the floor of the building carrying the various service lines and pipes for fuel, water, ballast and electric power, with connections made by holes in the floor. The steel arches overhead provide numerous catwalks for workmen and trolley beams for the handling of materials in building the airships. Work on one unit of this unusual manufacturing building is expected to be completed by midsummer. Assembly work on one bay of the first ship will be started as soon as this unit is under roof.

This is possible because a rigid airship, such as the navy craft will be, is not one integral gas bag, such as all early ships were and the non-rigid blimps still are, but consists of a series of great gas cells, fitted into duraluminum compartments. In case of an accident to three or four gas cells the ship will still fly.

These two ships will be built for service with

the navy's battle fleet. It is pointed out that, by reason of its greater speed, the airships can cover several times the area in reconnaissance work than a surface ship can and so permit more money, men and metal to be diverted to strictly fighting units.

This advantage will be heightened by the fact that the airships will carry several airplanes in a "garage" within the ship's hull; these planes to be released as needed and picked up afterwards while in flight. Such a fleet of ships and planes could patrol the entire Atlantic seaboard and prevent any concentrated movement against the coast remaining unobserved and unchallenged. And the military airships will be of great value to airplane itself in largely increasing its radius of action.

Another advantage of this type of airship, as has already been pointed out, lies in the fact that the puncture of a single gas cell will not send it to the ground. There are many such cells and, even if riddled with bullet holes, diffusion of gas would be slow and the cells could easily be repaired during flights. Military experts also point to the fact that its speed, altitude and its convoy of fighting airplanes carried inside its body would make it highly invulnerable to attack.

It is probable that one of the new ships will be stationed at Lakehurst, where the navy's present air station is located, and that the other will go to the west coast, where a second major airship base may be located.

Airship adherents declare also that ships similar to these being built for the navy will be used extensively before long in long-distance transportation, both transcontinental and transoceanic. These ships can fly at 80 miles per hour and have a cruising radius of 6,000 miles at full speed and 8,000 miles at cruising speed.

With a transatlantic airship line in operation a passenger could leave New York on a Saturday morning, arrive two days later, on Monday morning at London or Paris, spend four days on his business affairs, leave Europe on Friday morning, taking three days on the return trip against the prevailing westerly winds, arriving in New York again Monday morning.

In recommending the building of two ships the naval bureau of aeronautics cited some of the noteworthy flights by Zeppelin ships as indicating the usefulness in long range reconnaissance.

One of the most famous of these was the trip of the L-69 during the World War, shortly before Count Zeppelin's death. A colonial force had been surrounded in a town in German East Africa and a Zeppelin ship was outfitted at Jamboli, Bulgaria, to go to its relief, carrying munitions, machine guns and medicine. The ship was to be dismantled on arrival—the metal structure to be used for strengthening the defenses and the fabrics as tents for the soldiers.

The ship had flown 2,000 miles down the Nile valley and across the desert when it got news by wireless that the besieged force had surrendered. Without stopping for refueling it retraced its course back to Bulgaria. The flight was 4,220 miles, lasting better than four days.

The first craft to cross the Atlantic from east to west against the prevailing winds was the British R-34 which, in 1919, made a round trip from England to Mitchell Field, L. I.

The navy airship Los Angeles, built at Friedrichshafen, in central Europe, was delivered to the navy at Lakehurst, N. J., in a flight of 5,100 miles, consuming 81 hours. The Los Angeles since has flown to Cuba, West Indies and the Canal Zone and recently completed a trip to San Antonio, Texas, where it refueled and returned to its station.

The longest trip made by any airship was that of the Shenandoah, in a flight of approximately 8,000 miles, in October, 1924, around the rim of the American continent, stopping only for refueling at San Antonio, San Diego and Seattle.

The last memorable flight was that of the Graf-Zeppelin, named for the old count, which last October flew 1,000 miles off course in order to avoid a midatlantic storm, arriving at Lakehurst after 6,000-mile journey with 65 hours' fuel reserve. The return flight to Friedrichshafen was made in 71 hours.

Pigeon Effective in Role of Home Wrecker

Returning home to Philadelphia from his vacation, Robert Ransford opened his front door and pushed on the light. Such a scene of destruction met his eyes, that he hurried to the nearest drug store to call the police. Two answered the call and, with drawn revolvers and cautious steps, searched the lower part of the house for vandals. They found nothing but confused wreckage. Upstairs they found lamps overturned, bureau scarfs pulled off, and in the bathroom, bottles broken on the tiled floor. In the back room they discovered the culprit—a very tired and very hungry pigeon asleep on the bedpost. When it was assured that no valuables were missing, it was concluded that the bird had sought shelter in the fireplace chimney and had been unable to find its way out again.

SAME PRESCRIPTION HE WROTE IN 1892

When Dr. Caldwell started to practice medicine, back in 1875, the needs for a laxative were not as great as today. People lived normal lives, ate plain, wholesome food, and got plenty of fresh air. But even that early there were drastic physics and purges for the relief of constipation which Dr. Caldwell did not believe were good for human beings. The prescription for constipation that he used early in his practice, and which he put in drug stores in 1892 under the name of Dr. Caldwell's Syrup Pepsin, is a liquid vegetable remedy, intended for women, children and elderly people, and they need just such a mild, safe bowel stimulant.

This prescription has proven its worth and is now the largest selling liquid laxative. It has won the confidence of people who needed it to get relief from headaches, biliousness, flatulence, indigestion, loss of appetite and sleep, bad breath, dyspepsia, colds, fevers. At your druggist, or write "Syrup Pepsin," Dept. BB, Monticello, Illinois, for free trial bottle.

Chinese Study Journalism

See more, hear more, write more—such is the slogan of a Chinese school of journalism which has been founded in Shanghai. The head of the institution, a Chinese, intends to take his students for a tour of the country, fasting a year. The mornings will be devoted to class instruction, but in the afternoons the students will be turned loose to look for copy. The students will be expected to study the customs of the people, meet prominent individuals, learn economic conditions, so that by the end of the year they will not only be qualified to hold jobs on Chinese newspapers but will also have a first-hand knowledge of their own country.

Knees Are Trumps

"Frankness is the modern girl's long suit," says an exchange. Apparently it's the only long suit she has.

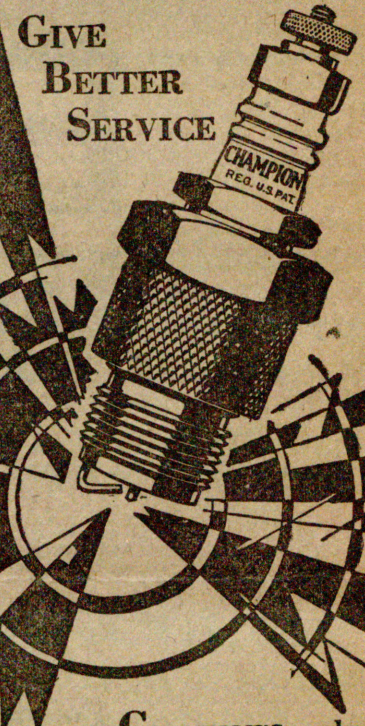

WHEN damp days, sudden changes in weather, or exposure to a draft makes joints ache, there is always quick relief in Bayer Aspirin. It makes short work of headaches or any little pain. Just as effective in the more serious suffering from neuralgia, neuritis, rheumatism or lumbago. No ache or pain is ever too deep-seated for Bayer Aspirin to relieve, and it does not affect the heart. All druggists, with proven directions for various uses which many people have found invaluable in the relief of pain.

Lesson for May 19

JEREMIAH CALLS TO OBEDIENCE

LESSON TEXT—Jeremiah 7:1-26.
GOLDEN TEXT—Hearken unto my voice, and I will be your God, and ye shall be my people.
PRIMARY TOPIC—Obeying God.
JUNIOR TOPIC—Obeying God.
INTERMEDIATE AND SENIOR TOPIC—Doing What God Commands.
YOUNG PEOPLE AND ADULT TOPIC—Obeying God in True Religion.

The prophet stood in the gate of the temple in order that the multitudes might hear him. The occasion was the coming together of the people from all over the country to attend some feast.

1. What God Requires (vv. 1-7).

1. Amend your ways (v. 3).
Their general course of living should be reformed, bad deeds giving place to good ones. On the basis of this change, God would permit them to remain in their city and country. Failure to do this would eventuate in their expulsion.

2. The folly of trusting in religious forms (v. 4).

The people regarded the temple as a charm against evil, irrespective of the condition of their hearts. Without a heart experience, the most sacred institutions and ordinances are valueless.

3. Social Justice (v. 5).

The proof of their having reformed was the execution of judgment between man and his neighbor. The proof of one's being in touch with God is his fair dealing with his fellowmen.

4. Not to oppress the helpless (v. 6).

The stranger would likely be ignorant of the laws of the land. The widows and orphans could easily be imposed upon. Protection for the weak is a requirement of godliness.

5. Not walk after other gods (v. 6).

Worship of idols and conformity to heathen customs go hand in hand. True morality is determined by the attitude of the individual toward God.

II. Solemn Warnings (vv. 8-15).

1. Teaching of false prophets (vv. 8-11).

These prophets taught the people that attention to ceremony, and observance of religious forms, exempted them from strict attention to morals. Those who heeded the words of the lying prophets were not slow to steal, murder, commit adultery, swear falsely and practice idolatry. They would even come into the Lord's house and claim freedom to practice such abominations. The sacred temple itself, filled with such worshippers would be a den of robbers.

2. Warning of Shiloh (vv. 12-15).

God caused His tabernacle to be set up in Shiloh, but in Eli's time He gave it into the hands of the Philistines because of the idolatry of the people. (Psa. 78:56-60). Even so would He do with the temple, the city and the whole country. This He had already done with Ephraim, the northern kingdom.

III. The Hopeless Condition of the People (vv. 16-20).

Their propensity to do evil was so strong that all efforts at reclamation were futile.

1. Pray not for them (v. 16).

There is such a thing as sinning unto death, in which case prayer is useless (1 John 5:16).

2. Entire families devoted their energies to that which provoked God's anger (vv. 17-19).

This was done by young and old—men and women. This they did to provoke God's anger. He assures them the outcome of such conduct would be their utter confusion.

IV. Judgment to Fall (v. 20).

Because the people poured out their offerings to idols, the furious anger and wrath of God would be poured out upon man, beast, tree, and the fruit of the ground. How this has been fulfilled, the history of the Jews makes clear.

V. Obedience Better Than Sacrifice (vv. 21-26).

The prophet appealed to history to show that God requires heart service rather than the observance of religious forms. Blessings came to Israel through obedience, while cursings followed disobedience. On the condition of obedience to His requirements, God promised to own them as His people and to bless them.

Confidence in Prayer

And this is the confidence that we have in Him, that, if we ask anything according to His will, He heareth us; and if we know that He heareth us, whatsoever we ask, we know that we have the petitions that we desired of Him.—1 John 5:14, 15.

No Discharge in That War

There is no man that hath power over the spirit to retain the spirit; neither hath he power in the day of death; and there is no discharge in that war; neither shall wickedness deliver those that are given to it.—Ecclesiastes 8:8.

A Neglected Bible

A neglected Bible means a starved and strengthless spirit, a comfortless heart, a barren life, and a grieved Holy Ghost.—F. B. Meyer.

LEADING... RADIO PROGRAMS

(Time given is Eastern Standard subtract one hour for Central and two hours for Mountain time.)

N. B. C. RED NETWORK—May 19.

2:00 p. m. Dr. Stephen S. Wise.
3:00 p. m. Dr. S. Parks Cadman.
6:00 p. m. Chicago Symphony Orch.
6:30 p. m. Major Bowes' Family Party.
8:00 p. m. David Lawrence.
8:15 p. m. Atwater Kent.
9:15 p. m. Studebaker Champions.

THE KITCHEN CABINET

(©, 1929, Western Newspaper Union.)

When a person gets around fifty, so many things that he thought at one time as very important, do not seem important at all. Only the precious things of life seem important and significant.—George Matthew Adams.

VARIOUS GOOD THINGS

When possible to obtain it, buy the unpolished rice, it is much more wholesome and better flavored. The wild rice grown in our northern marshes is an especial delicacy, but its price is prohibitive for general use.

Rice Delight.—Take one cupful of cooked, cooled rice, mix with one cupful of sugar. Drain a can of sliced or cubed pineapple from the liquor, using one cupful, add to the rice with a little salt and fold in one cupful of heavy cream, whipped, sweetened and flavored. Garnish with strips of pineapple or the cubes rolled in chopped mint leaves.

Coconut Pudding.—Soak one cupful of fine bread crumbs in one quart of scalded milk, let stand one hour. Add three tablespoonfuls of melted butter, three eggs slightly beaten and one-half cupful of sugar. Add one cupful of fresh grated coconut, the grated rind from half an orange and turn into a buttered pudding dish; bake until firm and delicately brown. Serve hot with hard sauce or cold with cream.

Old Fashioned Sponge Cake.—Take eight eggs, separate the whites and yolks. Beat the yolks 25 minutes, add one cupful of sugar, beating constantly, the grated rind of half a lemon with its juice, then fold in two cupfuls of flour sifted five times before measuring, fold the stiffly beaten whites into the dough and bake in a moderate oven.

Strawberry Pie.—Bake a rich pastry shell on the bottom of a pan. Cool and fill with sliced strawberries well mixed with sugar and one-fourth cupful of orange juice, all well chilled before filling the pie. Top with whipped cream.

Snowballs.—Take one cupful each of sugar and butter, add one cupful of pasteurized cheese grated, one egg, two teaspoonfuls of lemon juice and four teaspoonfuls of baking powder with three and one-half cupfuls of flour. Roll in balls the size of a walnut and bake in a slow oven (300 degrees) for 15 minutes. Dip into icing and roll in coconut.

Seasonable Good Things.

Now that rhubarb is plentiful, you will find this sauce a rare treat:

Rhubarb and Orange Sauce.—Wash and cut the rhubarb into inch pieces without peeling. Grate the rind of two oranges and remove the pulp from the white membrane. Mix the rind, rhubarb and one and one-half cupfuls of sugar together and bake one hour. Dissolve a tablespoonful of gelatin in a tablespoonful of cold water and add to the baked rhubarb with the orange pulp. Fill pastry shells and decorate with whipped cream.

Orange Strawberries.—Wash and hull one box of strawberries, cover with the juice of two oranges mixed with one cupful of sugar. Serve in glasses and top with whipped cream piped on with a pastry tube.

Raspberry Junket With Raspberry Jam.—Prepare plain or flavored junket with milk according to directions. Garnish with raspberry jam and serve.

Peanut Rice Salad.—Wash and cook three tablespoonfuls of rice for seven minutes in boiling salted water, drain, cover with one cupful of orange juice and cook in a double boiler until the rice is tender. Cool, mix with chopped peanuts using one-half cupful. Sprinkle with salt and arrange on lettuce with cream cheese balls. Serve with french dressing.

Carrot Marmalade.—Grate twelve raw carrots, add four cupfuls of sugar, three lemons, rind and juice, one teaspoonful each of allspice, cloves and cinnamon and cook slowly one hour. Turn into glasses and seal with paraffin.

Pineapple and Strawberry Sherbet.—Boil two cupfuls of sugar with one quart of water for twenty minutes. Add one cupful of pineapple juice and one cupful of strained strawberry juice; add the juice of a lemon and one teaspoonful of gelatin dissolved in two tablespoonfuls of cold water and placed over hot water. Cool and freeze as usual.

Molasses Cookies.—Take three eggs, one cupful each of molasses and brown sugar, one cupful of shortening, one cupful of sour milk, two teaspoonfuls of soda and flour to roll. Bake in a moderate oven.

Fruit Punch.—Take one quart of currant juice, one cupful of raspberry juice, the juice of one lemon, with sugar sirup to sweeten. Chill and serve with ice.

Catawba Drink.—Take one quart of catawba grape juice, juice of one lemon, one can of grated pineapple, with sirup to sweeten. Chill and serve with ice.

Nellie Maxwell

Wake up your energy with this "wake-up food" POST TOASTIES

Toasted, golden flakes with all the wholesome sweetness of the sun-ripened corn—Post Toasties is just the breakfast cereal for warm weather when you want foods light and crisp. Serve it to the family tomorrow with cool milk or cream—topped off with ripe fruit or berries. See if everyone doesn't call you a good provider!

You'll send them off to work or play with a grand new store of energy. For Post Toasties is rich in energy—in the most quickly digested form. Crown-ups and youngsters alike find it easy to digest.

Easily served, too, right from the red and yellow package. Call up your grocer today.

Nothing rattles a timid belle like an engagement ring.

Seeing isn't believing in the case of the man who never heard of a radio.

Why He Succeeded

Honored politically and professionally, during his lifetime, Dr. R. V. Pierce, whose picture appears here, made a success few have equalled. His pure herbal remedies which have stood the test for many years are still among the "best sellers." Dr. Pierce's Golden Medical Discovery is a stomach alterative which

makes the blood richer. It clears the skin, beautifies it; pimples and eruptions vanish quickly. This Discovery, or "G. M. D.", of Dr. Pierce's puts you in fine condition. All dealers have it in liquid or tablets.

Send 10 cents for trial pkg. of tablets to Dr. Pierce's Clinic, Buffalo, N. Y., and write for free medical advice.

400,000 Women Report Benefit by actual record

"Have you received benefit from taking
Lydia E. Pinkham's Vegetable Compound?"

A questionnaire enclosed with every bottle of medicine has brought, to date, over 400,000 replies. The overwhelming majority—in fact, ninety-eight out of a hundred—says, "Yes." If this dependable medicine has helped so many women, isn't it reasonable to suppose that it will help you too? Get a bottle from your druggist today.

Soap 25c. Ointment 25c. and 50c. Talcum 25c. Sample each free.

Address "Cuticura," Dept. B6, Malden, Mass.

Cuticura Shaving Stick 25c.

Good Action

Lady Paul Dykes, formerly Mrs. Ogden Mills, said at a dinner in New York:

"Whether beauty is an advantage or a hindrance to the working woman, I can't say. Certainly it draws a lot of attention to her if she has it. "A doctor once telephoned for a nurse to look after a very sick man. The nurse arrived. She was a beautiful girl, and she seemed to understand her duties.

"The next morning the doctor said: "Well, nurse, how is our patient's heart action today?" "Doctor," she answered, 'it's just wonderful. He's proposed to me four times already.'"

Fear of Woman Greater

All in all, I believe man's love, fear and awe of women is greater than of God.—E. W. Howe's Monthly.

By good management, one can almost escape from being uselessly annoyed by telephone.

Takes Time to Mature

An oak is from sixty to seventy years old when it first bears acorns.

Church Benefits

By Insurance

The usual life insurance policy, in which a church is named as beneficiary, is payable only at the death of the insured.

The Disciple Church of Kent, however, is beneficiary of a policy by which it wins whether the insured lives or dies.

Martin L. Davey, President of the Davey Tree Expert Company, and candidate for governor of Ohio last year, has taken out a \$50,000.00 five year endowment policy in favor of this church.

If Davey should die tomorrow the face amount is payable immediately to the church. If he lives five years \$50,000.00 accumulates in cash and is payable then to the church. As he is only forty-five his life expectancy far outruns the policy.

The proceeds will be used to build a new church building. The rest of the congregation is to match the amount of the policy, and construction is to begin as soon as the cash value of the policy is big enough to permit a loan to be made against it.

The new plant will be called the John Davey Memorial Church of Christ, in honor of Mr. Davey's father, who was the founder of tree surgery.

ORLAND PARK

The Ladies Guild of the Orland Park M. E. church will meet on Thursday May 23rd at the home of Mrs. Edward Rust, Sr., at an all day meeting. Everyone invited.

NEW TAMMANY CHIEF

Although strictly a New York City organization, the name Tammany is known everywhere in the United States. When an old chieftain steps out and a new one is elected, that is news. John F. Curry, the new leader of Tammany Hall, holds the office once dominated by Dick Croker and the equally famous Charley Murphy. (Herbert Photos, New York City.)

Last of Gold Coins

The last one-dollar gold pieces coined were the Grant Memorial coins made in 1922.

TINLEY PARK

Mr. Dini is busily engaged hauling away the rubbish of the annual cleanup day.

Building operations on new residences and chicken houses in the Elmore subdivision are going on daily.

The Busy Bee Sewing Club met with Mrs. C. A. Steinhagen Wednesday afternoon.

There will be a dance at the Saenger hall next Monday evening.

BACHELORS GROVE

LUTHERAN CHURCH

Rev. Wm. Greve, Pastor

Special Pentecost services will be held next Sunday and Monday at 9:30 a. m. standard time.

Y. P. S. ENTERTAINMENT

Friday, May 24 at 8 o'clock standard time, the entertainment of the Bachelors Grove Y. P. S., will be given at the Community Hall. The play "Such a Girl" which proved to be a very interesting and entertaining one will be repeated as well as the dialog "Five O'clock Tea" and the minstrel show by the Jolly Chocolate Drops.

MOKENA

The annual banquet of the Mokena Parent-Teachers Association will take place on Tuesday evening, May 28th at 7 p. m. standard time in St. John's Auditorium.

The committees have been very active in planning a delicious dinner and in securing a well-known speaker and interesting entertainers. It is expected that every member will attend this gathering and in this way show his or her approval of the many helpful activities of the Association during the past year.

MOKENA M. E. CHURCH NOTES

Harold Sandall, Pastor

Church school 10:30 a. m.

Evening Worship 7:00 p. m.

Increase in the church school enrollment has made it necessary to add to the class period equipment. We believe it is a good policy to keep the classes small enough for each pupil to have the personal attention of the teacher. In spite of full classes we try at the same time to hold to the old saying, "There is always room for one improved."

MARLEY

Sunday May 19, Sunday school 10 a. m. Church services 11 a. m. Sunday evening Club 7:30 p. m.

Miss Dew Daley of the Joliet High School gave the Sunday Evening Club a very interesting and educational talk Sunday night on South America.

The Dramatic Club met Monday night. Parts were given out for the play "The Dust of the Earth" which they expect to give in the near future.

Mr. and Mrs. Charles Dale and family and Francis Dale visited Mrs. Dale's mother Mrs. Knudson, in Seneca Sunday evening.

Mr. and Mrs. Lewis Eberhardt and daughter Mrs. Mabel Williams were the guests of Mr. and Mrs. Julian Gorham Sunday.

Mrs. Bernice Frazer of Lockport spent the week end with her son, James Frazer.

Mr. and Mrs. Ralph Bush and family of Joliet were the guests of Mr. and Mrs. G. W. Bush Sunday.

The Sunday guests of Mr. and Mrs. Alfred Sproat were Mr. and Mrs. Jesse Cory and Mrs. Helen Howley of Rollo, Ill.

Mrs. T. J. Gilette of Brooke Park, Minnesota is visiting in the home of Mr. and Mrs. C. F. Haley.

Mr. and Mrs. Carl C. Handorf and family of Lemont township visited at the home of the formers father, John Handorf, Sr., Sunday.

Mrs. Chas. W. Lahmann underwent an operation at Silver Cross hospital, Joliet Saturday.

Miss Iva Yomlinson and Herman Stoll of Browntown, Wis., visited at the home of Mr. and Mrs. Glen Peterson last week.

Mr. and Mrs. Louis Tilsy and Miss Caroline Tilsy visited at the home of Mr. and Mrs. Chas. Doctor in Orland township Sunday.

more.

The last opportunity of giving to the Good Will Industries thru the Aid closes Saturday of this week. Mrs. Balaz is chairman of the committee and will forward the goods after that date.

The Sunday evening crowds have been coming steadily. We are glad to welcome the new faces in the congregation from time to time.

Albert Marti who has been ill with kidney trouble is somewhat improved.

THE KING OF SWAT RECEIVES HIS PROMISED SWEET REWARD

George Herman Ruth, the most spectacular figure in baseball, known to millions of fans as "The Babe," is shown receiving an osculatory reward from the new Mrs. Ruth at the Yankee Stadium. The new Mrs. Ruth is a regular attendant at the games in which her husband partakes, usually in a stellar role. The Babe loves the Missus, there's no doubt about that either, but the Missus loves the Babe, there's no doubt about that either, but the Babe must, if he wants to be rewarded in the sweetest and most thrilling manner, hit the ball for a home run at least once a day. The photograph indicates that he enjoys collecting the rewards. (Herbert, N. Y.)
